

September 30, 2021

We are pleased to announce that GSQN has secured another direct to employer contract. Louisiana Machinery (Louisiana Caterpillar) has set their plan designs to offer significant financial incentives to steer patients to your practice. Although there is a deductible, Louisiana Machinery encouraged its employees to select GSQN providers by offering reduced deductibles for using GSQN physicians. Like Pellerin Milnor, the reimbursement rate is a flat 140% of current year Medicare. The Payor notice will be posted soon.

GSQN is in active discussions with additional employers who have upcoming plan renewals and continuing with our priority to add unique opportunities in the self-insured market and augment the value based contracts we have with traditional payors.

If you have any questions or potential local employers you would like us to talk to, please contact me directly at 504-313-0124.

Looking forward to the future!

Sincerely,

Jeffrey M. Turner
President & C.E.O.
